

PETAR MILOVANOVIĆ

Junior Web Developer

Dynamic Junior Web Developer with experience in both digital marketing agency and web development studio settings. Skilled in project scoping, cross-functional collaboration, and hands-on development, specializing in JavaScript, React, Node.js, WordPress, Java and more. Eager to bring technical expertise and a collaborative spirit to a forward-thinking development team.

EXPERIENCE

Šema | Web Developer

| Jun 2019 - Jul 2020 |

Digital Marketing Agency

Founding member of a cross-functional team dedicated to the digitalization of local businesses, managing diverse projects from small e-commerce setups to comprehensive digital ecosystems.

- **Defined and executed web project scopes**, engaged in client ideation and planning sessions, and collaborated seamlessly within a broader cross-functional team
- **Collaborated on a large digital ecosystem**, comprising of four web platforms
- Developed a keen understanding of business operations, adapting web initiatives to align with actual business goals and limitations

OCP | Junior Web Developer

| Apr 2018 - May 2019 |

Web Development Studio

Internship turned into a professional role at a boutique studio with a team of 5 web developers, 3 designers, and 2 Project Managers.

- **Independently developed and led end-to-end** simple web projects, including managing client interactions and facilitating cross-team operations.
- Was introduced to **Agile methodology**, contributing to team efficiency.
- Conducted **website maintenance** tasks, ensuring the continued functionality and performance of existing projects.
- Played a role in launching IT League, the largest independent sport-business league, contributing significantly to the web platform.

INDEPENDENT PROJECTS

STRIMHealth

| 2024 |

Wordpress Website

- Led the **complete development** of the STRIMHealth website for a healthcare research organization.
- **Managed all aspects of communication and design**, independently making design decisions to align with the client's visual identity and preferences.
- Focused on optimizing the layout for **responsive design and site performance** to ensure a seamless experience across devices.
- Demonstrated ability to **manage and deliver a full web project** independently from start to finish.
- Live website available at: strimhealth.ibiis.ac.rs

Delaygram

| 2023 |

Instagram-type Web Application

- Developed a **full-stack** Instagram-type web application for the master's final project.
- Utilized **React** for front-end, **Google Firebase** for online database, and **Node.js** for back-end.
- Demonstrated ability to create a cohesive, standalone, full-stack web application.
- Source code available on my GitHub page: github.com/petar97

The Rick & Morty App

| 2021 |

Android Application

- Developed an Android application using **Java** in the **Android Studio** environment as a culmination of my last year of bachelor's studies.
- Successfully **integrated an API** to populate the application with content, presenting information in a concise and clear format.
- The project is accessible on my GitHub page: github.com/petar97
