PETAR MILOVANOVIĆ

Frontend Engineer

Frontend Engineer with 4+ years of experience across digital agencies, product teams and independent projects. I design and build clean, responsive interfaces, from an AI transcription platform to football club websites and mobile app screens, and work closely with backend teams to deliver reliable, well-structured frontends.

EXPERIENCE

AppWorks | Frontend Engineer

Apr 2025 – Present

IT Services & Digital Products Company

Sole frontend engineer, responsible for UI/UX design and frontend implementation across media and sports platforms.

- **LitteraWorks:** designed and built the entire frontend of an AI transcription platform and its marketing site, in **Vue 3, TypeScript, Pinia and TipTap**, with real-time updates, 8 interface languages and **Vitest/Playwright** tests.
- **FK Partizan:** built the official club website in **Nuxt** (match centre, live blog, squad, Serbian/English) and designed and built its upcoming redesign.
- **Mobile apps:** designed and built the **Laravel Blade** webview screens of five iOS and Android apps: Insajder, RTV Budva, Peristeri B.C., Cork City FC and the Serbian SuperLiga.
- **Websites:** the Dnevnik digital edition, the Croatian Basketball Federation (HKS) competition hub and the Erasmus+ UpSpace project site.
- Implementing API integrations with backend engineers; responsive, cross-browser UI built with **Tailwind CSS, Bootstrap** and custom CSS.

Šema | Web Developer

Jun 2019 – Jan 2021

Digital Marketing Agency

Founding member of a cross-functional team dedicated to digitalising local businesses, delivering projects from small e-commerce setups to complete digital ecosystems.

- **Defined and executed web project scopes**, took part in client ideation and planning sessions, and worked within a broader cross-functional team.
- **Collaborated on a large digital ecosystem** of four web platforms.
- Adapted web initiatives to each client's business goals and constraints.

OCP | Junior Web Developer

Apr 2018 – May 2019

Web Development Studio

Internship turned into a full role at a boutique studio of 5 developers, 3 designers and 2 project managers.

- **Independently developed and led** small web projects end to end, including client communication and coordination across teams.
- Worked in an **Agile** team and handled **website maintenance** for existing projects.
- Contributed to the web platform for the launch of IT League, the largest independent sport-business league.

INDEPENDENT PROJECTS

STRIMHealth

2024

WordPress Website

- Led the **complete development** of the website for a healthcare research project at IBISS, University of Belgrade: a fully custom WordPress theme with dynamic content.
- Handled **communication and design** directly with the client, matching their visual identity, with a focus on **responsive layouts and performance**.
- Live at strimhealth.ibiss.bg.ac.rs

Delaygram

2023

Instagram-style Web Application

- Built a **full-stack** social app for my master's final project: **React** frontend, **Node.js** backend and **Google Firebase** for real-time data and authentication.
- Source code at github.com/petar97/delaygram
